

INSTALLATION INSTRUCTIONS

Louver Kit

For Use with MGE/MCE/MHP Series Magic-Pak® Units

This manual must be left with the homeowner for future reference.

▲ WARNING

The Magic-Pak® unit must be installed with approved wall sleeve and grille accessories for safe operation. Improper installations could result in property damage, personal injury, or death.

▲ WARNING

Adequate safety precautions should be taken to protect personnel. Improper installations could result in property damage, personal injury, or death.

Shipping and Packing List

Qty	Description
1	Louver
1	Mounting Hardware Packet
1	Installation Instructions
1	Gasket (Factory-installed for aluminum louvers) (Field-installed for plastic louvers)

Manufactured By
Allied Air Enterprises LLC
A Lennox International, Inc. Company

Installation

Magic-Pak louvers are designed for installation on Magic-Pak Wall Sleeves.

In accordance with the 2014 Florida Building Code, it may be required to use specific fastening methods depending on the risk category and wind exposure classification of the project where the equipment is being installed. Please refer to our wind load certification documentation prescribing installation and fastener requirements at www.magic-pak.com/literature.

NOTE: Louvers should be tethered during the installation process to reduce the risk of dropping.

1. Remove cardboard template (if present) from wall sleeve opening.
2. Apply supplied gasket to the interior flat surface of the V-shaped dividing louver (see figure above). Gasket must align with wall sleeve divider panel (or unit fan panel if using ASLEEVE-3) to form a seal between louver and divider panel.

NOTE: Gasket is factory-applied to aluminum louvers.

Save these instructions for future reference

3. Install fasteners into the louver's two upper and two lower mounting holes. Do not seat fasteners completely (leave approximately 1/8" to 1/4" gap for fitment in step 4).
4. Guide louver through wall sleeve opening and insert fasteners into upper and lower key holes of the wall sleeve.

5. Install two middle fasteners.
6. Tighten all fasteners to secure louver to wall sleeve.

NOTE: *If additional sealing between wall sleeve and louver is desired, it is important to only caulk the left, right, and top sides. A gap between the bottom of the louver and the wall sleeve is required to allow proper rain water drainage.*

Kit No.	Description	Used With
ALVRPWHT-1	Polypropylene Louver Kit (White)	MCE/MHP4-09-(12, 18, 24, 30) & MCE/MHP4-10-(18, 24)
ALVRPWHT-2	Polypropylene Louver Kit (White)	MCE/MHP4-09-(36) & MCE/MHP4-10-(30)
ALVRPSAN-1	Polypropylene Louver Kit (Sandstone)	MCE/MHP4-09-(12, 18, 24, 30) & MCE/MHP4-10-(18, 24)
ALVRPSAN-2	Polypropylene Louver Kit (Sandstone)	MCE/MHP4-09-(36) & MCE/MHP4-10-(30)
ALVRPBGE-1	Polypropylene Louver Kit (Beige)	MCE/MHP4-09-(12, 18, 24, 30) & MCE/MHP4-10-(18, 24)
ALVRPBGE-2	Polypropylene Louver Kit (Beige)	MCE/MHP4-09-(36) & MCE/MHP4-10-(30)
ALVRPTPST-1	Polypropylene Louver Kit (Toupestone)	MCE/MHP4-09-(12, 18, 24, 30) & MCE/MHP4-10-(18, 24)
ALVRPTPST-2	Polypropylene Louver Kit (Toupestone)	MCE/MHP4-09-(36) & MCE/MHP4-10-(30)
ALVRPWHMGE-1	Polypropylene Louver Kit (White)	MGE4-09-(12, 18, 24, 30) & MGE4-10-(18, 24)
